LETTER FROM OUR FOUNDER

Growing up on a mushroom farm is not something my brother and I thought much about as kids. But it was there, on the farm, we developed an understanding and appreciation for the powerful health benefits of farm-fresh foods. When founding BIXBI® decades later, we applied that knowledge to our line of mushroom supplements for dogs and cats. BIXBI's portfolio has grown since those early days, but we've never lost sight of our mission to provide dogs with the absolute best nutrition, trusted ingredient sourcing and USA manufacturing.

Fresh Duck. No Meats.™

Our premium duck arrives from France and is blended with other nutritious ingredients. We don't use meat meals commonly found in other dog foods. These meals are rendered, dried at high temperatures and cooked once more. We choose fresh ingredients, cooked just once.

Seamless Protein Rotation™

Rotating your dog's diet on a regular basis provides flavor and nutrient variety. Each Rawbble® formula was created with similar ingredients and nutrient levels to make rotation quick and simple for most dogs. Sensitive dogs may require a gradual transition between formulas.
